VIEWS Key Features The Advantage is Clear

100% diethylene glycol produces industry-leading BTU output. It is non-flammable and safe.

Hour markers indicate exactly how much burn time is left

Grip ridges add friction to ensure stability on surfaces

Thick fiberglass wick maximizes the heat output while allowing the user to relight again and again

Easy twist-off screw cap design for safe and secure shipping

Clear can allows you to see the level of fuel inside of the can.

VIDACASA

The perfect Flameless Solution

Vidacasa's Instant Hot Catering Solutions provide an easy and safe way to serve hot food for catering functions of an hour or less. Our water-activated heat blaster packs, combined with our patented instant hot durable buffetware, allow for quick setup and easy cleanup without the use of potentially dangerous gel chafing fuel.

Catering Without Compromise

Featuring a flameless design for **enhanced safety**, **elegant presentation**, and **eco-friendly performance**. Easy to set up and versatile enough for any venue.

scan here to view demo

Vidacasa addresses real challenges: fire safety restrictions, unreliable heat, messy setups, and aluminum trays that don't meet client expectations. It's a smarter, modern way to keep food hot and impress your guests.

Hot Food in 3 Easy Steps!

No Flame, No Risk, No Mess.

STEP 1

Add Heat Blaster
Set up your Instant Hot Buffetware (or buffetware with insert) and add Heat Blaster packet.

STEP 2

Add Water
Add a small amount of water. Wait 1 minute.

TIP: Warmer water = faster activation!

STEP 3

Serve!
Transport and serve! Perfect for delivery service and quick catering.

Instant Hot Catering

The perfect flameless solution.

Vidacasa's Instant Hot Catering Solution provides an easy and safe way to provide hot food for buffets or catering functions of an hour or less. These water activated packs are flameless, cordless and odorless, making them the perfect alternative to traditional heating methods.
